Re: County Ditch #58 – 152nd Avenue Cross Culvert

Dear Property Owner,

The City of Ham Lake is replacing the pair of existing 72-inch corrugated metal cross-culverts underneath 152nd Avenue in the Brook View Meadows subdivision. The Contractor, Northdale Construction, is expected to begin construction in May. The contact for Northdale Construction will be posted on the website when it becomes available. The website will be updated with a revised start date when the Contractor provides a construction schedule. A description on how to find and access the website is at the bottom of this letter.

If you have any questions, comments or concerns with the project, or are aware of any specific issues, please contact me at 763-862-8000 or dkrugler@rfcengineering.com. Throughout construction, the resident portion of the City of Ham Lake's webpage will be updated with project notices and status updates. Please feel free to navigate to www.ci.ham-lake.mn.us/ and at the bottom of the page click on City Road Construction Projects and then choose "County Ditch #58-152nd Avenue Cross Culvert" for project updates and important information.

Sincerely,

RFC Engineering, Inc.

David A. Krugler
Ham Lake City Engineer
